

# Better bike lanes on **BOYLSTON AND BERKELEY STREETS**

We're adding separated bike lanes on Back Bay and South End streets to close gaps in Boston's bike network. The new lanes will be on Boylston Street, Berkeley Street, a block of Beacon Street, and two blocks of Columbus Avenue.

These separated bike lanes will create comfortable, continuous rides through Back Bay from Fenway, the South End, and beyond. The new two-way bike lane on Beacon Street will connect bicyclists to the Fiedler Footbridge and the Charles River.

## Talk with the project team:

- Saturday, June 17
- 2 - 4 p.m.
- Berkeley Street at Boylston Street
