COMMUNITY INPUT

- **The park needs to be refreshed; a new look will bring excitement and offer fundraising opportunities.**
- **Bluestone replacement is not desired.**
- **Electricity located next to a large open area would be useful for concerts and other programming.**
- **Café tables and chairs would be a welcome addition. They should be located in places where there is no interference with large open spaces for programming.**
- **Soil amendment and aeration will restore the nutrient-depleted soil, alleviate compaction, and allow for the success of future planting.**
- **Create more intimate spaces through seating and paving areas.**
- **Proper regrading of hardscape and planting areas will alleviate movement of dirt into the plaza and help to divert water into the planting beds where it used by the plants.**

**HARDSCAPE
IMPROVEMENTS**

Trash Receptacle (without BPRD logo)

Existing Metal Chairs to be Salvaged

Benches with Armrests

ADA Accessible Café Table
