BRJP Highlights and Concerns:

- Since the project last appeared before the BEC in January of 2018, there has been a significant amount of work performed; however Boston resident and female workforce percentages have barely increased.
- Of the top 5 subcontractor's for work hours performed, none are meeting the employment standards for Boston residents or females.
- 22 Boston residents have been reported so far and 9 of the 22 residency remain unverified.

RECOMMENDATIONS:

- Non-compliant subcontractors, who are currently mobilized on site, should present a corrective action plan detailing how they plan to better meet the employment standards with the hours they have remaining on site.
- Workers residency should be verified as soon as they arrive on site. A 90% Boston Resident verification rate is the standard.
