DESIGN GOALS

DESIGN UPDATE

HOW TO COMMENT

- -This is a webinar format, so all participants are muted with video off. You will only see panelists.
- -Please use Q&A button to ask questions during the presentation. The list of questions will be monitored, and either answered in real time or held to the end.
- -During discussion at the end, you can "raise hand" and will be taken off mute in the order the moderator sees the "hands."

PROCESS RECAP

DESIGN GOALS

- Restore Plant and Wildlife Habitat
- Complete the Trail Loop
- Improve Trail Accessibility
- Make Entrances More Welcoming
- Minimize Impact

DESIGN UPDATES

- Overall Trail Improvements
- Wetland Restoration Areas
