Mr. Nicholas Moreno, Executive Director
City of Boston
Conservation Commission
1 City Hall Square
Boston, MA 02201

**Subject: Request for Determinations of Applicability
Verizon Communications Trenching
Marginal Street
Boston, Massachusetts**

Dear Mr. Moreno:

On behalf of Verizon New England, Inc. (Verizon), Environmental Strategies & Management, Inc. (ES&M) is submitting a WPA Form 1 Request for Determination of Applicability (RDA) to the City of Boston Conservation Commission for the installation of underground telecommunications utilities in Marginal Street in Boston, MA. Site Locus Maps, Resource Area Site Maps, and Engineering Details are attached for this location.

The proposed underground utility improvements will be installed beneath the paved public roadway and/or sidewalk. The purpose of these utilities is to improve the poor condition of telecommunication conduits at this location. As shown on the Engineering Details, one 10-foot long, four-inch diameter PVC conduit will be installed beneath the sidewalk connecting to the 256 Marginal Street property, and 317-feet of four-inch PVC pipe will be replaced in Marginal Street within a three-foot wide by four-foot deep trench along the roadway.

Wetland resource areas in proximity to the proposed work are depicted on the Resource Area Maps based on MassDEP MassGIS mapping information. The work area is located within the 100 Year Flood Zone. No streams and/or wetlands are located within 300' of the work area.

This RDA is filed under the Massachusetts Wetlands Protection Act M.G.L. c.131, sec. 40, and MassDEP regulations 310 CMR 10. This filing is comprised of:

- This cover letter;
- Request for Determination of Applicability (WPA Form 1);
- Boston Wetland Regulations RDA Fee;
- List of Abutters Within 300'
- Abutters Notification Form;
- USGS Site Locus Maps (dated 1/28/2021);
- Work Area Map (1/29/2021);

- Detailed Erosion Control Plans (dated 1/29/2021); and
- Permit Card with Engineering Details (dated 12/15/2020)
- Permit Card with Engineering Details (dated 12/17/2020).

A copy of this filing has also been submitted by certified mail, return receipt requested to the Northeast Regional Office of the Massachusetts Department of Environmental Protection (MassDEP).

The public roadways are owned by the Massachusetts Port Authority whose permission for rights to install the utilities has been sought. The work involves no adverse impacts to BVW and Riverfront during trenching and erosion controls will be placed along roadway edges in the subject areas. No alternatives analysis is necessary since the work involves the installation of utilities in paved public roadways and a sidewalk that will not impact wetland resource areas and are considered minor activities under 310 CMR 10.02 (2)(b)(i).

We request to be placed on the Conservation Commission's agenda for the next available meeting. Please contact me if you have any questions or require additional information.

Sincerely,
Environmental Strategies & Management, Inc.

**Subject: Request for Determinations of Applicability - Supplemental Information
Verizon Communications Trenching**
Marginal Street
Boston, Massachusetts

Dear Mr. Moreno:

On behalf of Verizon New England, Inc. (Verizon), Environmental Strategies & Management, Inc. (ES&M) is submitting this Supplemental Information Letter in reference to the WPA Form 1 Request for Determination of Applicability (RDA) submitted on February 3, 2021 to the City of Boston Conservation Commission for the installation of underground telecommunications utilities in Marginal Street in Boston, MA. Site Locus Maps, Resource Area Site Maps, and Engineering Details are attached for this location to the February 3, 2021 submittal.

The proposed underground utility improvements will be installed beneath the paved public roadway and/or sidewalk. The purpose of these utilities is to improve the poor condition of telecommunication conduits at this location. Trenching will be conducted within the 100' flood zone, but since backfill material will be adequately compacted and restored to original elevations, no impact to the flood potential will be made. Erosion controls will be placed along roadway edges in the subject areas.

Since the work involves the installation of utilities in paved public roadways and sidewalk, it will not impact wetland resource areas and therefore, considered minor activities under 310 CMR 10.02 (2)(b)(i). Since the project does not involve a structure at the Subject Area, a BPDA Climate Resiliency Checklist was not completed for this submittal. Climate change and adaptation planning considerations are not feasible for this proposed work.

We request to be placed on the Conservation Commission's agenda for the next available meeting. Please contact me if you have any questions or require additional information.

Sincerely,
Environmental Strategies & Management, Inc.
