Boston Fire Department's General Requirement

City of Boston Municipal Code Mobile Food Truck (Ord.2011 c.5)

In the City of Boston, food truck vendors are required to apply for a number of permits as well as undergo inspections by both the Health and Fire Department.

Each registered truck requires a BFD General permit for open burning/cooking. Special Event permits for those that do not regularly operate in Boston may be obtained provided an application and inspection is submitted and approved.

A fuel storage permit is required for all diesel or purpose generators **not** fueled directly from a vehicle fuel tank. (Gasoline generators with a separate fill are not allowed.)

No more than 2-100 lb. tanks are allowed (200 lbs. aggregate)

Generator and LPG storage compartments located on the exterior of the vehicle must be enclosed. These compartments must have venting to the exterior and must not allow any venting to the interior of the vehicle. No storage or use of LPG cylinders or tanks within the vehicle at any time.

If an LPG storage compartment is added on the rear of the truck, the bumper shall extend beyond the compartment to provide added impact protection.

Belly tanks shall be installed according to DOT standards and located within the truck body frame for additional structural protection.

A commercial kitchen hood and suppression system is required for any vehicle with a grill, stove, or fryolator.

When a grill, stove, and fryolator are adjacent to each other, there shall be an 8 inch non combustibile splash shield between them as required by NFPA 96 or a 16" space must be provided.

Hood and exhaust systems shall be inspected in conformance with the requirements of the 2008 edition of NFPA 96 as adopted by the Commonwealth of Massachusetts.

At the time of inspection, hood and exhaust systems must be clean and the hood shall have the appropriate sticker attached by a Boston Fire Department Registered Cleaner.

All piping, interior gas appliances and commercial kitchen hood suppression systems must be professionally installed and permitted.

Boston Fire Department's General Requirement City of Boston Municipal Code Mobile Food Truck

A "flex pipe" is allowed from the LPG tank to the regulator. The regulator to the appliance must be "hard pipe" by a licensed plumber.

A Class K extinguisher of sufficient size and a 20 BC extinguisher shall be installed.

When parked on city streets, vendors are required to obtain a Boston Transportation Department (BTD) permit for 3 spaces. This ensures clear area in the front and rear of the truck.

During festival or Special Events, trucks shall maintain a minimum spacing no closer than 10 feet from the front and rear bumpers of other trucks.

To apply for a Boston Fire Department inspection, complete an application for a General BFD permit for open burning (cooking) or call the Special Hazards Unit if you have any additional questions.

Information and Instructions

Massachusetts General Laws chapter 152 requires all employers to provide workers' compensation for their employees. Pursuant to this statute, an *employee* is defined as "...every person in the service of another under any contract of hire, express or implied, oral or written."

An *employer* is defined as "an individual, partnership, association, corporation or other legal entity, or any two or more of the foregoing engaged in a joint enterprise, and including the legal representatives of a deceased employer, or the receiver or trustee of an individual, partnership, association or other legal entity, employing employees. However, the owner of a dwelling house having not more than three apartments and who resides therein, or the occupant of the dwelling house of another who employs persons to do maintenance, construction or repair work on such dwelling house or on the grounds or building appurtenant thereto shall not because of such employment be deemed to be an employer."

MGL chapter 152, §25C(6) also states that "**every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required.**" Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply your insurance company's name, address and phone number along with a certificate of insurance. Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage. **Also be sure to sign and date the affidavit.** The affidavit should be returned to the city or town that the application for the permit or license is being requested, **not** the Department of Industrial Accidents. Should you have any questions regarding the law or if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigations has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary). A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a home owner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigations would like to thank you in advance for your cooperation and should you have any questions, please do not hesitate to give us a call.
