

# Everyone Deserves Safe Streets

We have a bold plan for transforming Boston's streets to better serve people walking, rolling, and riding bikes in the next three years.

Everyone wants to feel safe, no matter where they're going or how they get there. We are committed to ending serious and fatal injuries from traffic crashes on our streets.

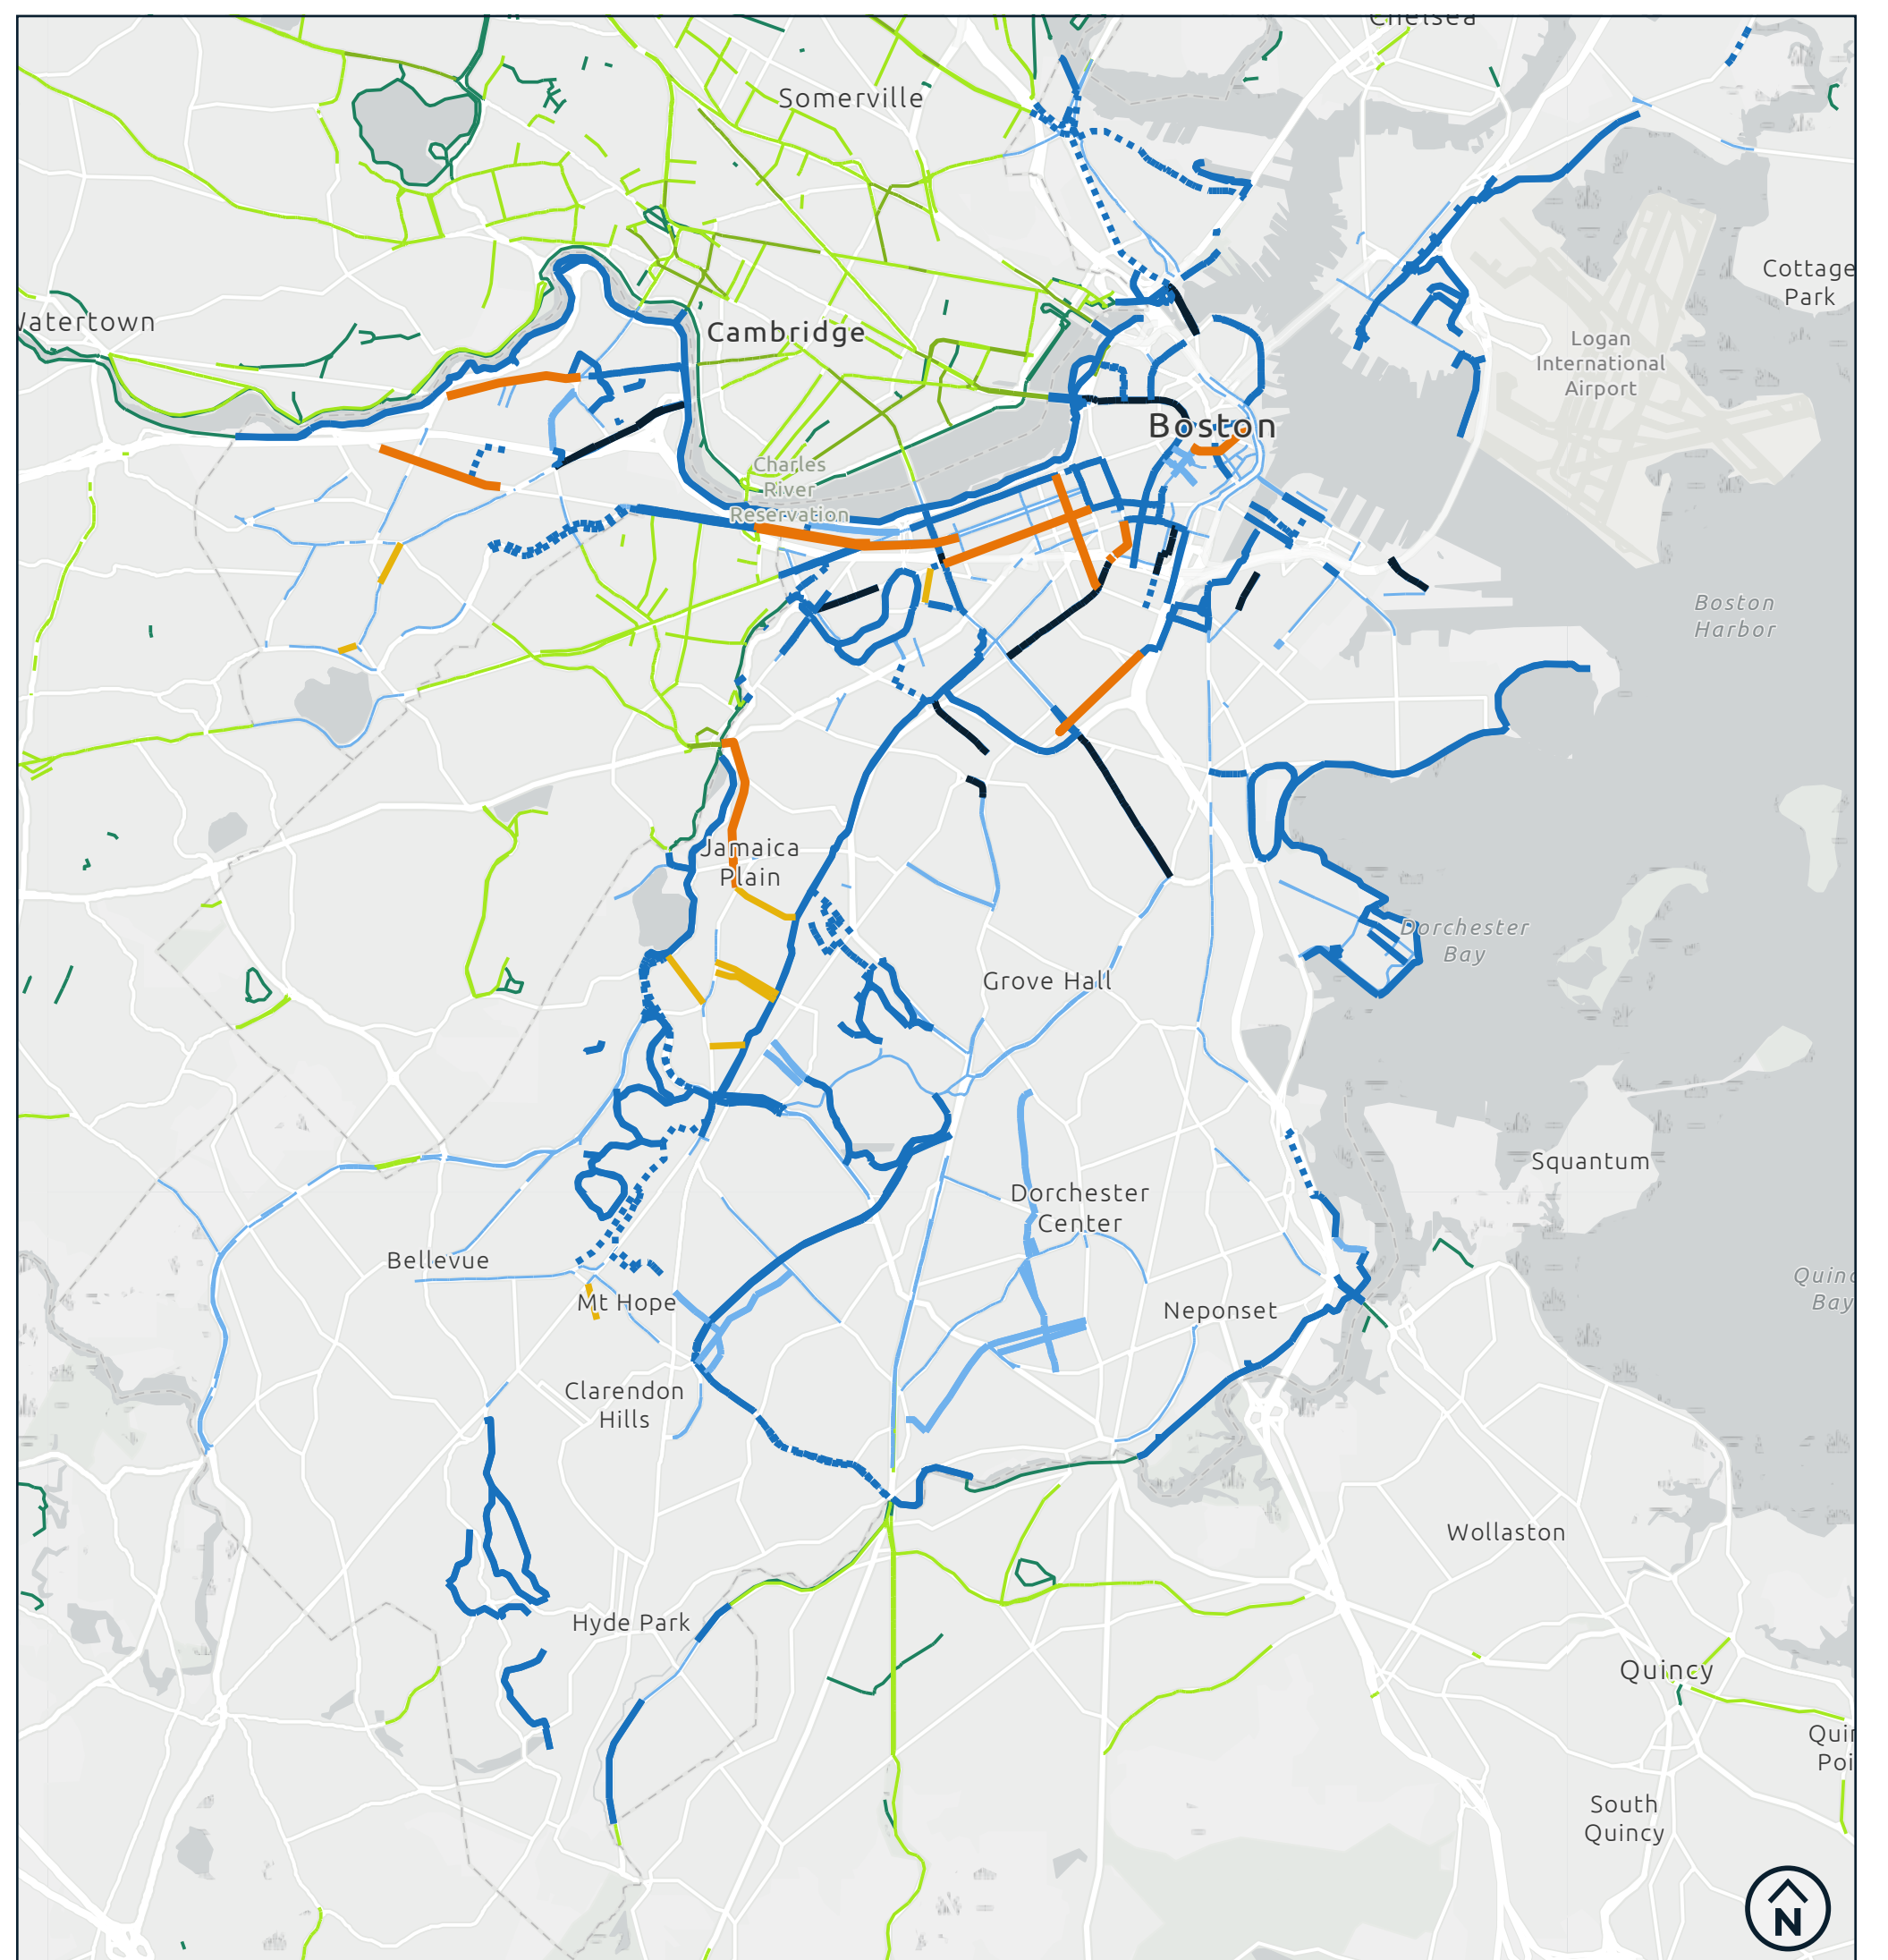

Climate change is our reality. Expanding sustainable transportation is the foundation for reducing emissions.

Transportation is part of our public health agenda. Safer streets can reduce emergency room visits and inspire more people to be active in their daily travels, choosing to walk or bike instead of drive.

## This year's projects

### 2023 Better Bike Lanes projects

- Separated bike lane
- Neighborhood route

Learn more about our work

### Existing & emerging bike network

- Separated bike lanes and paths
- Neighborhood route
- Bike lanes
- Project under construction
- Projects in design phase - unknown construction date
- Bike network outside of Boston
