

Why Eliot Street

Eliot Street provides a direct, legible connection between JP center and the Emerald Necklace path. You can easily access the path via the crosswalk at the Jamaicaaway.

People are already biking both ways on Eliot Street. We've heard from you, and observed ourselves, that people ride against traffic in the road and on the sidewalk.

Vehicle volumes are low. We can make the street safer and more comfortable by adding additional speed humps.

Artistic rendering of Eliot Street with a contraflow bike lane.
