

PROJECT OVERVIEW

WHAT:

The Boston Urban Agriculture Strategy gathers information on...

- Past and current urban agriculture plans, policies, and outreach efforts in Boston,
- Urban agriculture models in different US cities, and
- Residents' urban agriculture interests in the four priority neighborhoods (Dorchester, East Boston, Mattapan, Roxbury).

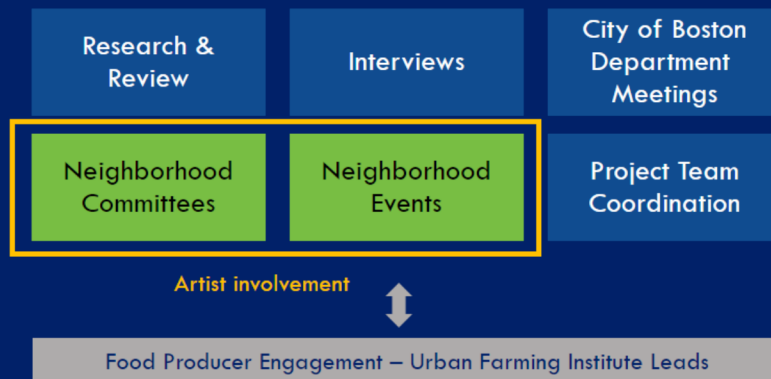

WHY:

...to give the GrowBoston office a useful guide for how to act and invest resources in a way that builds on previous efforts, works to achieve what residents are interested in, and enables them to be an equitable steward of urban agriculture in Boston.

HOW:

Our spirit - equitable, action-oriented, relationship-building

Our activities -

WHEN:

October 2022 – March 2024
