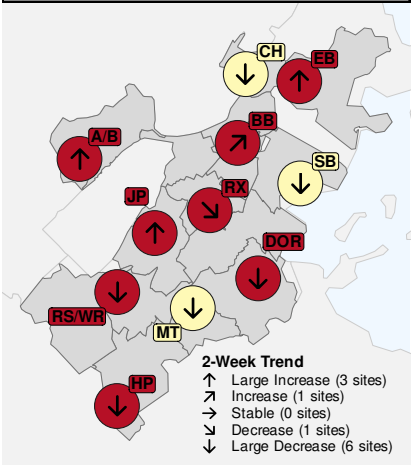
Neighborhood Levels and Trends

COVID-19 Wastewater Levels & Trends (07-Jan-2024)



COVID-19 Level (# sites)	0 sites	0 sites	3 sites	0 sites	8 sites
	Very Low	*Low*	*Moderate*	*High*	*Very High*

BOSTON CITYWIDE COVID-19 LEVEL & TRENDS

COVID-19 LEVEL	2-WEEK TRENDS
Very High	↓
2,023 copies/mL samples through 07-Jan-2024	*Large Decrease* -772 copies/mL (-28%)

NEIGHBORHOOD SITES COVID-19 LEVEL & TRENDS

Level	Neighborhood/Site		Trend
Very High	Roslindale/West Roxbury (RS/WR)	↓	Large Decrease
	Allston/Brighton (A/B)	↑	Large Increase
	Roxbury (RX)	↘	Decrease
	Jamaica Plain (JP)	↑	Large Increase
	Dorchester (DOR)	↓	Large Decrease
	East Boston (EB)	↑	Large Increase
	Back Bay (BB)	↗	Increase
	Hyde Park (HP)	↓	Large Decrease
Moderate	Charlestown (CH)	↓	Large Decrease
	Mattapan (MT)	↓	Large Decrease
	South Boston (SB)	↓	Large Decrease

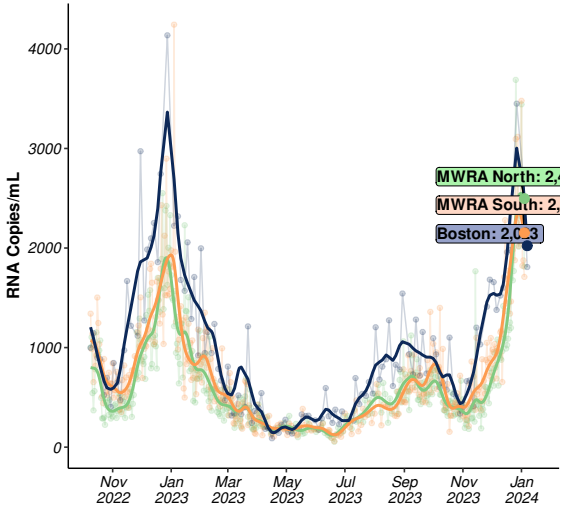
Citywide Overview and Trends



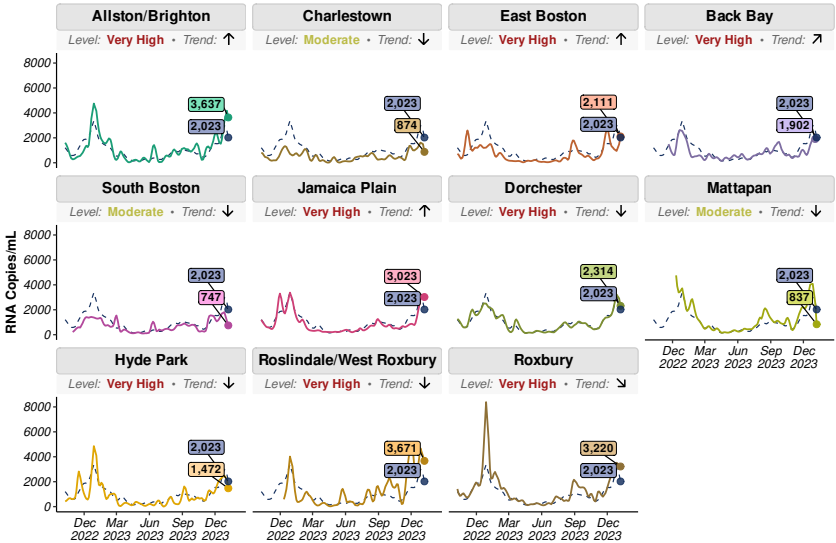
CITYWIDE AVERAGE	RANGE ACROSS 11 NEIGHBORHOOD SITES
2,023 *RNA copies/mL*	**747-3,671** *RNA copies/mL*

Data through: **07-Jan-2024**

2-WEEK TRENDS	
Boston **Decreasing**	**-28%** over the past 14 days
MWRA North **Increasing**	**+49%** over the past 14 days
MWRA South **Increasing**	**+14%** over the past 14 days

Updated: 11-Jan-2024 | **Samples through:** 07-Jan-2024 (BPHC); 04-Jan-2024 (MWRA) | **MWRA Data:** https://www.mwra.com/biobot/biobotdata.htm

BPHC Trend Overview by Neighborhood

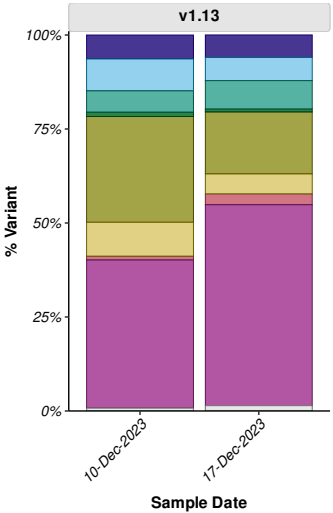


For each neighborhood, colored line and textbox shows the smoothed trend and most recent value in that neighborhood;

The dotted blue line and dark blue text box in each panel shows the trend and most recent value across **all Boston sites** weighted by population.

To see details and interpretation of these results for an individual neighborhood see Results by Neighborhood.

Citywide Percent Variant Lineages



Variant	%
XBB	6.0%
XBB.1.5	6.1%
XBB.1.9	7.5%
FL.1.5.1	0.8%
EG.5	16.5%
HV.1	5.3%
BA.2.86	2.9%
JN.1	53.4%
Other	1.4%

Average variant percentage across all BPHC sites weighted by population size | Table shows variant percentages for samples collected the week of 17-Dec-2023 (most recent available data); Variant results are reported weekly with a 3-week lag due to laboratory processing and analysis.

Sequencing Analysis Protocol Version: v1.13 (05-Jan-2024):
- XBB includes all XBB sublineages aside from those specifically reported
- "Other variants" contains all variants not explicitly quantified.

Version Changes: Added: • BA.2.86 • JN.1
- Removed XBB.1.9.1, XBB.1.9.2, XBB.1.16

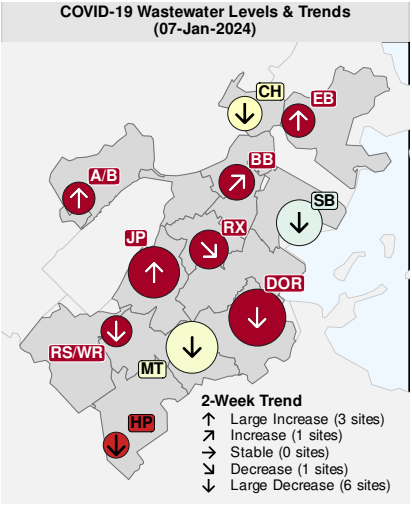
Neighborhood Levels and Data Table



NH	COVID-19 Wastewater Levels		2-Week Trends		
	Conc. (copies/mL)	Level	Trend	Diff. (copies/mL)	% Change
BOSTON	**2,023**	**Very High**	**Large Decrease**	**-772**	**-28%**
RS/WR	3,671	Very High	Large Decrease	-552	-13%
A/B	3,637	Very High	Large Increase	+997	+38%
RX	3,220	Very High	Decrease	-163	-5%
JP	3,023	Very High	Large Increase	+558	+23%
DOR	2,314	Very High	Large Decrease	-623	-21%
EB	2,111	Very High	Large Increase	+1,155	+121%
BB	1,902	Very High	Increase	+472	+33%
HP	1,472	Very High	Large Decrease	-974	-40%
CH	874	Moderate	Large Decrease	-586	-40%
MT	837	Moderate	Large Decrease	-3,395	-80%
SB	747	Moderate	Large Decrease	-1,106	-60%

Concentration Levels: Very High: >1,400 copies/mL; High: 1,050-1,400 copies/mL; Moderate: 700-1,050 copies/mL; Low: 350-700 copies/mL; Very Low: ≤350 copies/mL

2-Week Trend Categories: Large Increase: >+500 copies/mL; Increase: +150 to +500 copies/mL; Stable: -150 to +150 copies/mL; Decrease: -500 to -150 copies/mL; Large Decrease: ≤-500 copies/mL

Results by Neighborhood

- Allston-Brighton (A/B)
- Back Bay (BB)
- Charlestown (CH)
- Dorchester (DOR)
- East Boston (EB)
- Hyde Park (HP)
- Jamaica Plain (JP)
- Mattapan (MT)
- Roslindale/West Roxbury (RS/WR)
- Roxbury (RX)
- South Boston (SB)

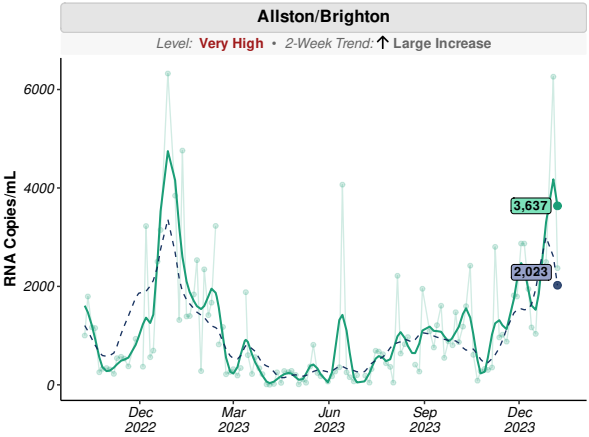
Allston/Brighton

Level: **Very High**

- Average value in **A/B** over the past week: **3,637** copies/mL.
- This value is **very high** compared to past values and **higher** than the citywide average (**2,023** copies/mL).

Trend: ↑ **Large Increase**

- Over the past two weeks, values in **A/B** are **increasing**.
- Change compared to two weeks ago: **+997** copies/mL (**+38%**).



See recommended actions and resources based on levels and trends in this neighborhood.

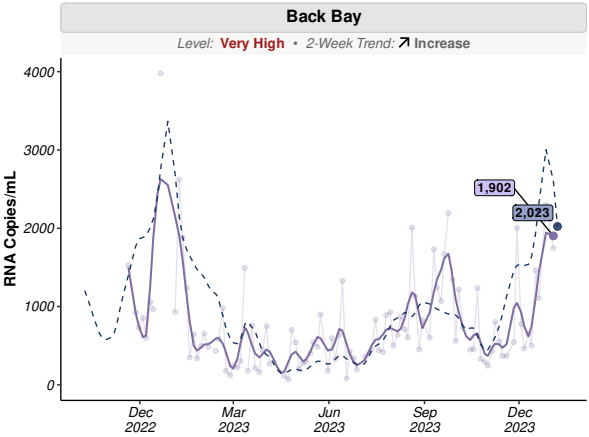
Back Bay

Level: **Very High**

- Average value in **BB** over the past week: **1,902** copies/mL.
- This value is **very high** compared to past values and **similar** than the citywide average (**2,023** copies/mL).

Trend: ↗ **Increase**

- Over the past two weeks, values in **BB** are **increasing**.
- Change compared to two weeks ago: **+472** copies/mL (**+33%**).



Updated: 11-Jan-2024 | **Samples through:** 03-Jan-2024 (BB);

See recommended actions and resources based on levels and trends in this neighborhood.

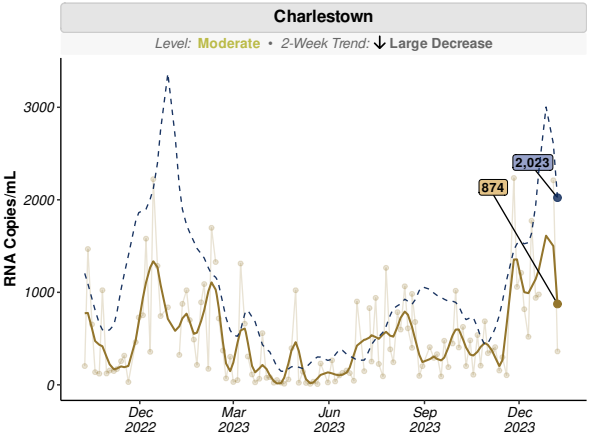
Charlestown

Level: **Moderate**

- Average value in **CH** over the past week: **874** copies/mL.
- This value is **moderate** compared to past values and **lower** than the citywide average (**2,023** copies/mL).

Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **CH** are **decreasing**.
- Change compared to two weeks ago: **-586** copies/mL (**-40%**).



See recommended actions and resources based on levels and trends in this neighborhood.

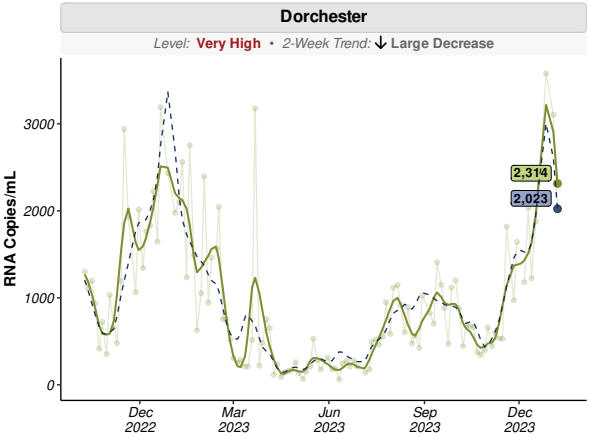
Dorchester

Level: **Very High**

- Average value in **DOR** over the past week: **2,314** copies/mL.
- This value is **very high** compared to past values and **similar** than the citywide average (**2,023** copies/mL).

Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **DOR** are **decreasing**.
- Change compared to two weeks ago: **-623** copies/mL (**-21%**).



Updated: 11-Jan-2024 | **Samples through:** 07-Jan-2024 (DOR);

See recommended actions and resources based on levels and trends in this neighborhood.

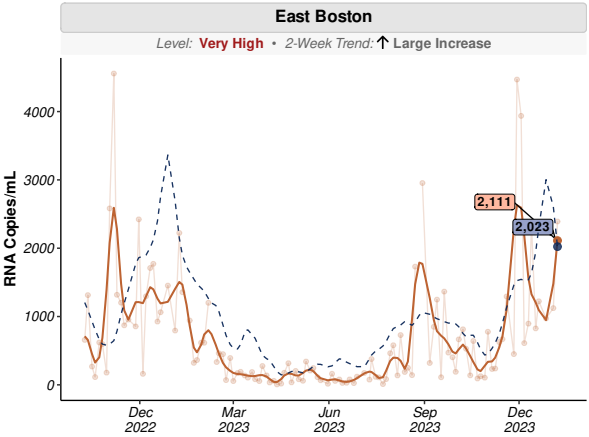
East Boston

Level: **Very High**

- Average value in **EB** over the past week: **2,111** copies/mL.
- This value is **very high** compared to past values and **similar** than the citywide average (**2,023** copies/mL).

Trend: ↑ **Large Increase**

- Over the past two weeks, values in **EB** are **increasing**.
- Change compared to two weeks ago: **+1,155** copies/mL (**+121%**).



See recommended actions and resources based on levels and trends in this neighborhood.

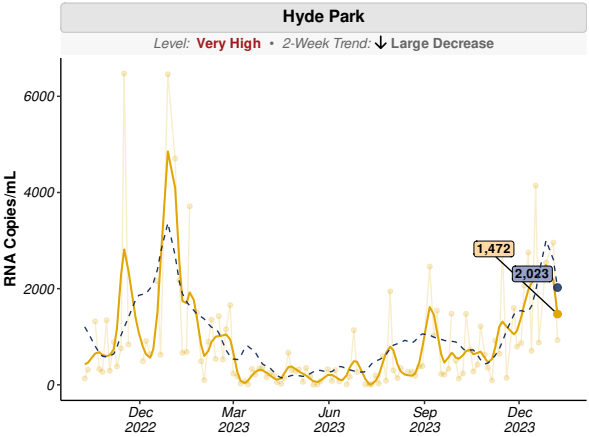
Hyde Park

Level: **Very High**

- Average value in **HP** over the past week: **1,472** copies/mL.
- This value is **very high** compared to past values and **lower** than the citywide average (**2,023** copies/mL).

Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **HP** are **decreasing**.
- Change compared to two weeks ago: **-974** copies/mL (**-40%**).



Updated: 11-Jan-2024 | **Samples through:** 07-Jan-2024 (HP);

See recommended actions and resources based on levels and trends in this neighborhood.

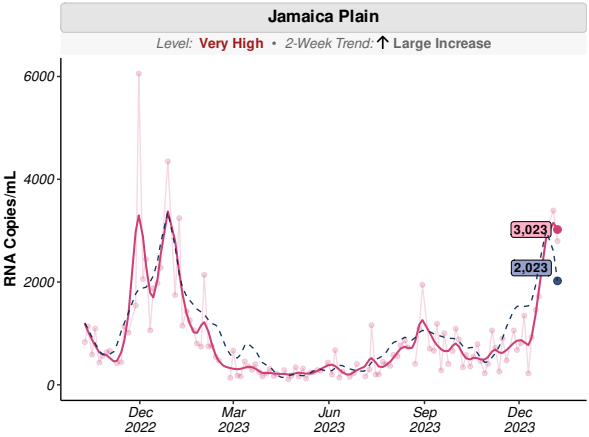
Jamaica Plain

Level: **Very High**

- Average value in **JP** over the past week: **3,023** copies/mL.
- This value is **very high** compared to past values and **higher** than the citywide average (**2,023** copies/mL).

Trend: ↑ **Large Increase**

- Over the past two weeks, values in **JP** are **increasing**.
- Change compared to two weeks ago: **+558** copies/mL (**+23%**).



See recommended actions and resources based on levels and trends in this neighborhood.

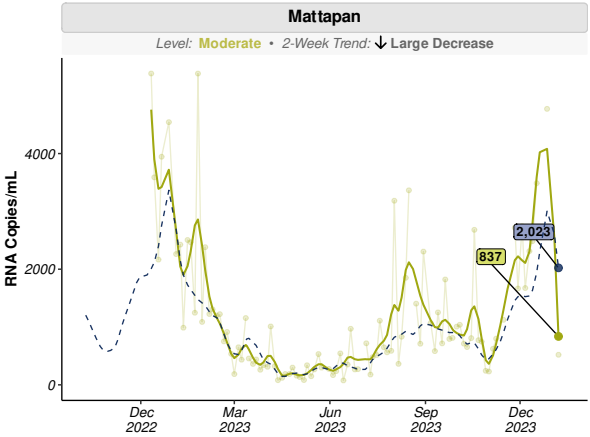
Mattapan

Level: **Moderate**

- Average value in **MT** over the past week: **837** copies/mL.
- This value is **moderate** compared to past values and **lower** than the citywide average (**2,023** copies/mL).

Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **MT** are **decreasing**.
- Change compared to two weeks ago: **-3,395** copies/mL (**-80%**).



Updated: 11-Jan-2024 | **Samples through:** 07-Jan-2024 (MT);

See recommended actions and resources based on levels and trends in this neighborhood.

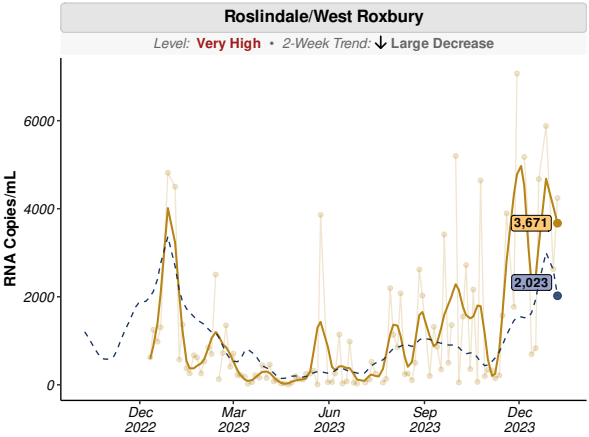
Roslindale/West Roxbury

Level: **Very High**

- Average value in **RS/WR** over the past week: **3,671** copies/mL.
- This value is **very high** compared to past values and **higher** than the citywide average (**2,023** copies/mL).

Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **RS/WR** are **decreasing**.
- Change compared to two weeks ago: **-552** copies/mL (**-13%**).



Updated: 11-Jan-2024 | **Samples through:** 07-Jan-2024 (RS/WR);

See recommended actions and resources based on levels and trends in this neighborhood.

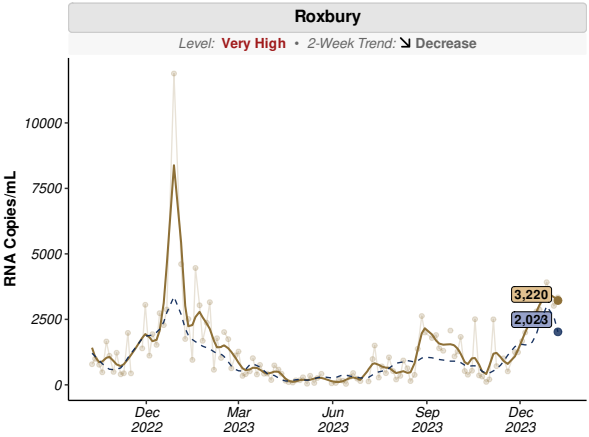
Roxbury

Level: **Very High**

- Average value in **RX** over the past week: **3,220** copies/mL.
- This value is **very high** compared to past values and **higher** than the citywide average (**2,023** copies/mL).

Trend: ↘ **Decrease**

- Over the past two weeks, values in **RX** are **decreasing**.
- Change compared to two weeks ago: **-163** copies/mL (**-5%**).



See recommended actions and resources based on levels and trends in this neighborhood.

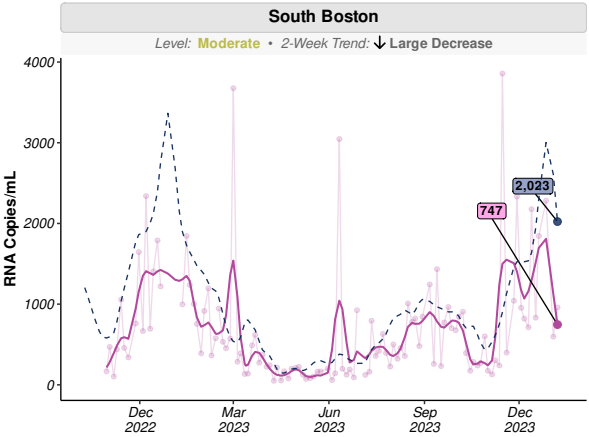
South Boston

Level: **Moderate**

- Average value in **SB** over the past week: **747** copies/mL.
- This value is **moderate** compared to past values and **lower** than the citywide average (**2,023** copies/mL).

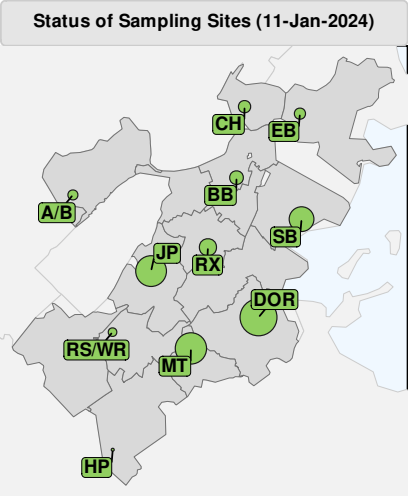
Trend: ↓ **Large Decrease**

- Over the past two weeks, values in **SB** are **decreasing**.
- Change compared to two weeks ago: **-1,106** copies/mL (**-60%**).



See recommended actions and resources based on levels and trends in this neighborhood.

Site Status and Details



#	Neighborhood	Date Site Confirmed	Site Status	Pop. Covered	% Neighborhood Covered
01	A/B	02-Oct-2022	Active	2,684	4.0%
02	CH	02-Oct-2022	Active	3,736	18.3%
03	EB	02-Oct-2022	Active	3,178	6.3%
04	BB	20-Nov-2022	Active	4,551	8.1%
05	SB	30-Oct-2022	Active	14,962	35.8%
07	JP	02-Oct-2022	Active	23,573	56.9%
08	DOR	02-Oct-2022	Active	34,562	23.8%
09	MT	11-Dec-2022	Active	24,441	80.5%
10	HP	02-Oct-2022	Active	1,262	3.5%
11	RS/WR	11-Dec-2022	Active	2,165	3.5%
12	RX	02-Oct-2022	Active	7,036	16.5%

Level and Trend Category Definitions

Concentration Levels

Concentration Level	Concentration Value (Copies/mL)
Very High	>1,400
High	1,050-1,400
Moderate	700-1,050
Low	350-700
Very Low	≤350

2-Week Trend Categories

	Trend Category	Trend Value (Copies/mL)
↑	Large Increase	>+500
↗	Increase	+150 to +500
→	Stable	-150 to +150
↘	Decrease	-500 to -150
↓	Large Decrease	≤-500

Level: Very High

Wastewater viral levels in your neighborhood indicate **very high risk** of COVID-19 infection.

Based on this level, BPHC urgently recommends the following practices to prevent COVID-19 in your community:

- **Wear a high-quality mask or respirator**
- **If you are at high risk of getting very sick, consider limiting non-essential indoor activities in public where you could be exposed.**
- **If you have close contact with someone at high risk of getting very sick, consider self-testing to detect infection before contact, and consider wearing a high-quality mask when indoors with them**
- Stay up-to-date on vaccinations.
- Seek testing and possible treatment if you get sick
- Stay home when sick and avoid contact with others who are sick
- Improve indoor airflow and ventilation
- Wash your hands often and cover coughs and sneezes
- Follow CDC recommendations for isolation if you have COVID-19 and for what to do if you are exposed to someone with COVID-19

RESOURCES

- Find a vaccination clinic in your neighborhood
- Find a testing site or pickup a free at-home test kit in your neighborhood
- Find treatment for COVID-19 including free telehealth and in home treatment.
- Call or visit the Mayor's Health Line
- Learn more about COVID-19 and find additional resources: COVID-19: Know the Facts Find the Truth

Level: High

Wastewater viral levels in your neighborhood indicate **high risk** of COVID-19 infection.

Based on this level, BPHC strongly recommends the following practices to prevent COVID-19 in your community:

- **Wear a high-quality mask or respirator**
- **If you have close contact with someone at high risk of getting very sick, consider self-testing to detect infection before contact, and consider wearing a high-quality mask when indoors with them**
- Stay up-to-date on vaccinations.
- Seek testing and possible treatment if you get sick
- Stay home when sick and avoid contact with others who are sick
- Improve indoor airflow and ventilation
- Wash your hands often and cover coughs and sneezes
- Follow CDC recommendations for isolation if you have COVID-19 and for what to do if you are exposed to someone with COVID-19

RESOURCES

- Find a vaccination clinic in your neighborhood
- Find a testing site or pickup a free at-home test kit in your neighborhood
- Find treatment for COVID-19 including free telehealth and in home treatment.
- Call or visit the Mayor's Health Line
- Learn more about COVID-19 and find additional resources: COVID-19: Know the Facts Find the Truth

Level: Moderate

Wastewater viral levels in your neighborhood indicate **moderate risk** of COVID-19 infection.

Based on this level, BPHC recommends the following practices to prevent COVID-19 in your community:

- **If you are at high risk of getting very sick, wear a high-quality mask or respirator in public indoor spaces**
- **If you have close contact with someone at high risk of getting very sick, consider self-testing to detect infection before contact, and consider wearing a high-quality mask when indoors with them**
- Stay up-to-date on vaccinations.
- Seek testing and possible treatment if you get sick
- Stay home when sick and avoid contact with others who are sick
- Improve indoor airflow and ventilation
- Wash your hands often and cover coughs and sneezes
- Follow CDC recommendations for isolation if you have COVID-19 and for what to do if you are exposed to someone with COVID-19

RESOURCES

- Find a vaccination clinic in your neighborhood
- Find a testing site or pickup a free at-home test kit in your neighborhood
- Find treatment for COVID-19 including free telehealth and in home treatment.
- Call or visit the Mayor's Health Line
- Learn more about COVID-19 and find additional resources: COVID-19: Know the Facts Find the Truth

Level: Low

Wastewater viral levels in your neighborhood indicate **low risk** of COVID-19 infection.

Based on this level, BPHC recommends the following practices to prevent COVID-19 in your community:

- **Continue to monitor wastewater levels and trends**
- Stay up-to-date on vaccinations.
- Seek testing and possible treatment if you get sick
- Stay home when sick and avoid contact with others who are sick
- Improve indoor airflow and ventilation
- Wash your hands often and cover coughs and sneezes
- Follow CDC recommendations for isolation if you have COVID-19 and for what to do if you are exposed to someone with COVID-19

RESOURCES

- Find a vaccination clinic in your neighborhood
- Find a testing site or pickup a free at-home test kit in your neighborhood
- Find treatment for COVID-19 including free telehealth and in home treatment.
- Call or visit the Mayor's Health Line
- Learn more about COVID-19 and find additional resources: COVID-19: Know the Facts Find the Truth

Level: Very Low

Wastewater viral levels in your neighborhood indicate **very low risk** of COVID-19 infection.

Based on this level, BPHC recommends the following practices to prevent COVID-19 in your community:

- **Continue to monitor wastewater levels and trends**
- Stay up-to-date on vaccinations.
- Seek testing and possible treatment if you get sick
- Stay home when sick and avoid contact with others who are sick
- Improve indoor airflow and ventilation
- Wash your hands often and cover coughs and sneezes
- Follow CDC recommendations for isolation if you have COVID-19 and for what to do if you are exposed to someone with COVID-19

RESOURCES

- Find a vaccination clinic in your neighborhood
- Find a testing site or pickup a free at-home test kit in your neighborhood
- Find treatment for COVID-19 including free telehealth and in home treatment.
- Call or visit the Mayor's Health Line
- Learn more about COVID-19 and find additional resources: COVID-19: Know the Facts Find the Truth
