

6 Columbus Sq. Front Entryway Improvements

Project Introduction and Scope:

Our objective with this project is to eliminate the water intrusion within the bluestone slab and front steps along with applying historic paint to the exterior at the front entryway.

The scope of work is below:

1. Removal of existing bluestone slab, replace with new stone without coal cap
2. Eliminate chipped/cracked masonry work on the front stoop
3. Resurface the front stoop to match existing
4. Apply paint to match the neighboring building, color, and sheen
