

330 SHAWMUT AVE

Inquilinos Boriquas en Accion (IBA), owner of the property located at 330 Shawmut Ave, has received a request from the Boston Fire Department to move the originally-approved Fire Department Connection (FDC) from the side entry wall to the front of the building as shown in the rendering below. There was a concern that if a hose was connected to the FDC, it would obstruct the entrance to the building for fire fighters and other life safety service members.

Original Proposed FDC Location

Revised Proposed FDC location being requested by BFD

PROPOSED FDC

The new FDC location would have the following traits:

- Painted black up to the brass connection to help it blend into the building more and match color scheme of building
- Would only go as high as the existing fence, with brass connection just above the top rail.
- Would provide immediate and direct access for firefighters if needed in the case of a fire emergency.

334 SHAWMUT AVE

Inquilinos Boriquas en Accion (IBA), owner of the property located at 330 Shawmut Ave, has received a request from the Boston Fire Department to move the originally-approved Fire Department Connection (FDC) from the side entry wall to the front of the building as shown in the mockup below. There was a concern that if a hose was connected to the FDC, it would obstruct the entrance to the building for fire fighters and other life safety service members.
