# Boston Employment Commission Project Review

---

## **BRJP Highlights and Concerns:**

- Since the project last appeared before the BEC in February of 2018, there have been roughly 2500 additional work hours reported; however Boston resident and people of color workforce percentages have decreased, and female work force participation has hovered at 2%.
- Of the top 5 subcontractor's for work hours performed, none are currently meeting the employment standards relating to Boston residents or females.
- 17 Boston residents have been reported so far. 3 of the 17 residency remain unverified.
- The projects current overall payroll submission time is at 14 days with no weeklies having been submitted since June. The following subcontractors are contributing to outstanding payroll submissions times:
  - A&E Fire Protection – 15 days
  - Augiar Landscaping – 17 days
  - CMP Plumping Heating – 20 days
  - Diaz Construction – 12 days
  - Hope Trucking – 18 days
  - Innovating Construction – 14 days
  - Monahan Technologies – 25 days
  - MPS Products - 15 days.

## **RECOMMENDATIONS:**

- Non-compliant subcontractors, who are currently mobilized on site, should present a corrective action plan detailing how they plan to better meet the employment standards with the hours they have remaining on site.
- Workers residency should be verified as soon as they arrive on site. A 90% Boston Resident verification rate is the standard.
- Payrolls need to be submitted within 7 business days, so subcontractors workforce percentages can be monitored in a real time manner.
