BRJP Highlights and Concerns:

- Construction started in June 2018 and is now about 53% complete (*based on payments approved*).
- Mario Susi & Son Inc (GC) performed 85% of the total workhours reported and is exceeding the goal for Boston Residents (57%) and People of Color (46%), with 8% Female participation.

Compliance documentation dated 12/19/18 from Mario Susi & Son Inc., explaining deficiencies is attached (this letter was received on 12/8/18).

- Mass Bay Electric is exceeding the female goal at 19%, but needs to improve performance for Boston Residents (31%) and People of Color (20%).
- The average submission time for the payroll reports is 5 days.
- 13 (93%) of the 14 Boston Resident workers reported are verified.

RECOMMENDATIONS:

The BRJP Office recommends that Mario Susi & Son Inc. -

Consider reaching out to resources (such as the Jobs Bank, Youth Build Boston, etc.) to assist in your efforts to recruit potential female candidates interested in a career in the equipment operator trade.

Provide documentation from Mass Bay Electric to address 0% performance for electricians in the People of Color category and 0% in all areas for the lineman trade.

Provide any outstanding Boston Resident verifications to support resident hours worked. Improve process for ensuring Boston Residents are verified the 1st week they show up on the payroll report.

12/19/18 BEC review

Re : 45553 Quincy St Recon

- To discuss overall low performance for Equipment Operators : This project consisted of one work crew on site for the vast majority of the duration of the project. Of this crew, only one person is an equipment operator. Equipment operators in our line of construction are a specialized and adept in operating especially Gradall and backhoe excavators. The required licenses needed are also specialized. To find people to meet such criteria as well as current BRJP standards is difficult. In prior meetings with BRJP, BEC etc it has been discussed how there are not many training outlets to provide Boston Residents, People of Color, and Females the necessary training time, access to equipment to practice on, help with obtaining hoisting licenses, health cards, etc. to help them become Equipment Operators. So what we have done, and continue to do, to try to assist in this process, is to look internally with employees in our current workforce that express a desire to become an Equipment Operator. We have two People of Color who we have successfully helped to achieve this. One, Jose Borrero, was the Equipment Operator on this project mostly. The drawback is that this process takes time. We are currently working with a few current employees who are Boston Residents and trying to help them become Equipment Operators. We feel that will soon reflect in better performance in our Boston Resident Equipment Operator category. We are hoping to do the same for our Female Equipment Operator category performance. We are finding this process to be more difficult. Any guidance is appreciated.
- We have reached out to Mass Bay Electric Corp and asked them to provide a comprehensive plan for this project on how they will increase their People of Color Electrician category performance. We will provide that plan for review.
